

Mobile Lite

About Angus Anywhere Mobile Lite:

Capable of running on any smartphone or tablet with Internet browsing capabilities (Including BlackBerry®, iPhone, iPad® and Android® phones and tablets), Mobile Lite enables full work order processing including create, assign, dispatch, update and complete. Search capabilities allow Managers and Technicians to query the Angus System for contact information on tenant contacts, vendors and employees. In addition, work order and To-Do lists enable effective mobile management of field staff.
