

Create Custom Handbooks

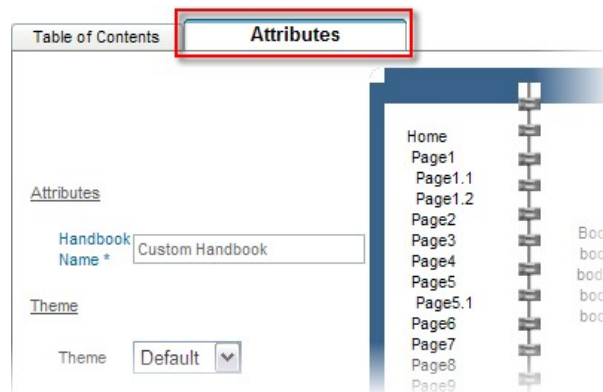

1. Click [Control Panel > Content Manager > Handbooks](#)
2. Click **Add** under the **Custom Handbooks** section.

3. Click on the **Attributes** tab.
4. Add a desired **Handbook Name**.
5. Select the settings for **Theme**, **Cover Page Image**, and **Table of Content Image**.

Note:

- There are only a few default themes to choose from, however, themes can be created to customized preferences. Refer to [Creating Customized Handbook Themes](#) for more information.

6. Refer to [Creating New Page](#) to add pages under the *Table of Contents* tab.
7. Click **Submit**.
