

## Miscellaneous & Other Keyboard Shortcuts

### Miscellaneous:

<b>Undo</b>		<b>Ctrl+Z</b>	Disregards the last action Click to undo your last changes. This includes but is not limited to inserting tables, moving images and formatting text. Expand the dropdown list to select multiple actions.
<b>Redo</b>		<b>Ctrl+Y</b>	Redoes the last undone action. Click to redo the last undone action. Expand the dropdown list to select multiple actions to redo.
<b>Find and Replace</b>		<b>Ctrl+F</b>	Opens the Find and Replace dialog.

### Other Keyboard Shortcuts

Some of the general keyboard shortcuts valid for Microsoft Windows™ and Internet Explorer™ will work in the r.a.d.**editor**™ as well. For your reference, we have included some of them (in addition to the keyboard shortcuts described above):

<b>Ctrl + A</b>	Selects the whole content of the editor (text, images, tables, etc.)
<b>Ctrl + W</b>	Closes the active window.
<b>Alt + F4</b>	Closes the active application.
