

Local News and Links

[Control Panel](#) > [My Workspace](#) > [Local News and Links](#)

Local News and Links:

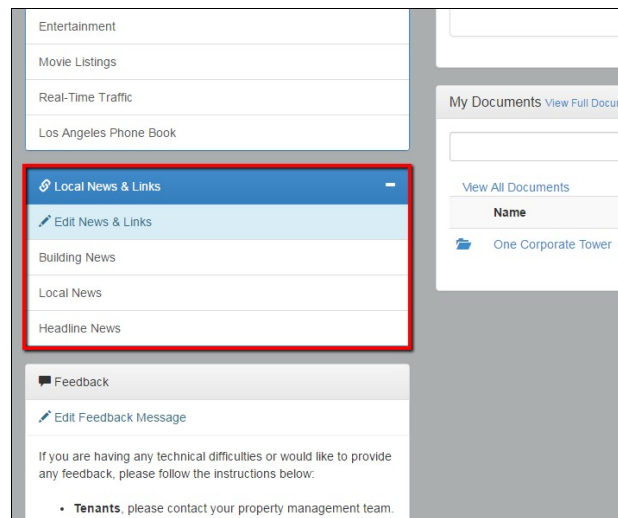

About Local News and Links:

Local News and Links is a section located on your My Workspace page that is dedicated to providing convenient **Building News**, **Local News**, and **Headline News**.

- **Building News** - Read and download the latest news from "Your Property."
- **Local News** - Get your local news events with local favorite sources.
- **Headline News** - Get the latest on current events happening worldwide.

Both Local and Headline News can easily be customized while Building News automatically compiles active [Management News](#) into a newsletter.

Edit Local News and Links:

1. Go to **Control Panel** > **My Workspace** > **Local News and Links**.
2. To edit the **Local News** link, insert a desired **URL** and **Description**.
3. To edit the **Headline News** link, select one of the given choices from the drop-down menu.
