Removing Management News Events:

Removing from My Workspace Page (without deleting):

Management News events are automatically removed from the My Workspace page once they have expired. To expedite the removal from the My Workspace page *without* deleting it, simply edit the **End Date** (refer back to [Adding/Editing Management News Events](#) for more information).

Management News events will remain on the entries list even after they have expired. To completely delete the news event, follow the steps below.

Deleting Management News Events:

1. Go to **Control Panel > My Workspace > Management News**.
2. Locate and select the desired news entry and click **Remove**.

The screenshot shows the 'Content Manager' interface. At the top right, there are buttons for 'Add', 'Remove', and 'Send'. The 'Remove' button is highlighted with a red box. Below the buttons, there is a section titled 'Management News - 26 entries'. A table lists several news events with columns for 'Subject', 'Start Date', 'End Date', and 'Active'. The 'Blood Drive' event is highlighted in blue, and its checkbox is checked and highlighted with a red box.
