

Removing a Page

1. Click [Control Panel > Content Manager > Handbooks](#)
2. Locate the desired handbook and click **Edit**.

3. To remove a page from the live handbook, select the desired page from the **Table of Contents** column, and click **Remove**.

4. Click **OK** to confirm removal.

Note:

- The removal of a page from the active Table of Contents moves it over to the Unapplied Pages column.

5. To completely delete the page select it again (but from the **Unapplied Pages** column this time.)

Note:

- To select multiple pages to remove at once, hold **Ctrl** or **Shift** + when clicking the unapplied pages.

6. Click **Remove**.
