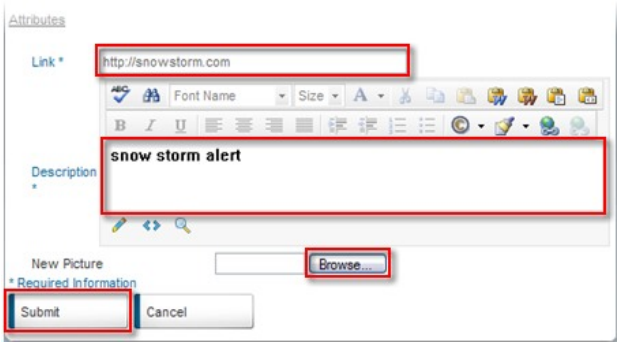
Tracking Information

Control Panel > Communication > Emergency Communication > Tracking Information

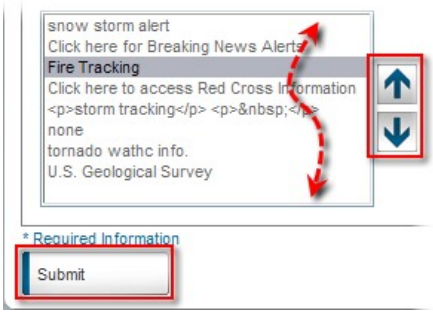
Add / Edit / Remove Tracking Information:

1. Go to **Control Panel** > **Communication** > **Emergency Communication**.
2. To add, edit, or remove **Tracking Information**, click on the **Tracking Information** tab.
3. Click on **Add** to create a new tracker or select a desired tracker and click on **Edit** or **Remove**.

4. If adding or editing an emergency tracker, enter a desired website **Link** (i.e. http://cbs.com), **Description**, and a resized **Picture**.
5. Click on **Submit**.



6. To set the order of how the **Tracking Information** will appear on your Emergency Communication page, select the trackers in the list box and reorder them, as desired, using the arrows.



7. Click on **Submit**.
