

Deleting Components

[Control Panel](#) > [Work Order](#) > [Dashboard](#)

Deleting Components:

Note:

- When confirmed, a deleted component is permanently removed from the dashboard, but it can be recreated.
-

1. In the top-right corner of the component's title bar, click the delete button (X).
2. In the popup window that opens, click **Yes** to confirm the deletion. The component is now removed.
