

Enabling Photo Gallery

1. Click on [Control Panel > Content Manager > Photo Gallery > Attributes](#)
2. Click on the **Attributes** tab.
3. Select **Enable Photo Gallery** if not already selected, or deselect it to disable the photo gallery.

The screenshot shows a web interface with two tabs: 'Attributes' (selected) and 'Albums'. Under the 'Attributes' tab, there is a section titled 'Enable Photo Gallery'. It contains three items: a checked checkbox labeled 'Enable Photo Gallery' (highlighted with a red box), an unchecked checkbox labeled 'Enable Homepage Preview', and a dropdown menu labeled 'Homepage Preview Album' with 'V-DAY Sweepstakes' selected.

4. Click **Submit**.
