

Interactive Stacking Plan

About:

The Interactive Stacking Plan module allows you to provide your prospective tenants with a fun, interactive way of viewing your property's availabilities. Axis is one of the first (if not **the** first) platform to offer an Interactive Stacking Plan on such a large scale.

The screenshot displays a web interface for an Interactive Stacking Plan. At the top, a dark red navigation bar contains links for HOME, CONTACT, AREA INFO, PROPERTY INFO, LEASING INFO, TRAINING VIDEOS, and LOGIN. Below the navigation bar, a dropdown menu shows 'Building: Tower One'. The main content area features a large image of a modern glass skyscraper with a grid overlay. A pop-up window titled 'FLOOR 05 SELECTED SUITE' is open, showing details for suite 100: Office Downtown High Rise, SQF: 1021, Rate: \$21, and Available Date: Available Now. A 'View Detail' link and an 'EMAIL SELECTED LISTINGS' button are also visible. The bottom of the page has a dark blue footer with contact information for Ronnie Mercer, Andrew Davis, and Katherine Truong, along with the address 400 South Hope Street, Los Angeles, CA 90071, and the note 'Powered By Axis'.
