

Property Directory Options

Edit Property Directory Options:

[Control Panel](#) > [Content Manager](#) > [Contact Section](#)

1. From the Contact Section Setup page, scroll down to the bottom of the page to see the Property Directory Options.
2. Select **Enable Property Directory** with a check mark to make the Property Directory available on your Portal.

Note:

- Deselect Enable Property Directory so that there is no check mark to disable and hide the Property Directory from your Portal.
- 3. Select **Enable Profile Picture Column** to add a column to the search results displaying the Tenant and Non-Tenant User portraits.

Note:

- Deselect Enable Profile Picture Column so that there is no check mark to disable and hide the user portraits from the Property Directory search results.
4. Click **Save**.
