Microsoft Edge Settings

Microsoft Edge Settings:

In order for the Angus AnyWhere modules to function properly within Axis Portal, pop-ups and cookies must be enabled. Refer to the subsections below for additional details.

Enabling Pop-Ups:

As described below, there are two methods available to enable pop-ups: enabling pop-ups for all websites, and enabling pop-ups for Angus AnyWhere only.

Enabling pop-ups for all websites

This is currently the only way in Edge to enable pop-ups before accessing the website. It has the drawback of enabling popups for all websites.

1. Click on the **More Actions** (...) menu icon in the top-tight corner of the Edge browser window, and select **Settings**.

2. At the bottom of the Options menu, click View Advanced Settings.

Enabling pop-ups for Angus AnyWhere only

Currently, the only way to enable pop-ups for a specific website in Edge is to wait until a pop-up needs to be opened, at which point Edge will display a message at the bottom of your window indicating that a pop-up was blocked. When you see this message, click **Always Allow**.

	Microsoft Edge blocked a pop-up from *.ng1.angusanywhere.com.	Allow once	Always allow	×	>
1	abling Cookies:				

If cookies are not enabled, you will be unable to view the Angus AnyWhere modules in Axis Portal. Follow the steps below to enable cookies:

1. Click on the **More Actions** (...) menu icon in the top-tight corner of the Edge browser window, and select **Settings**.
