

View Modes

Design Mode

Default mode for entering content.

Click this button to switch the editor WYSIWYG to design mode. This is the primary mode for entering content, images, and documents into the RadEditor.

HTML Mode

Advanced mode for entering/ editing HTML code.

Click this button to switch the editor into HTML mode.

Preview Mode

Mode for reviewing content before publishing.

Click this button to switch the editor into preview mode to see the result of your changes. Content **cannot** be entered in this mode.

Full Screen Mode

F11

Mode for easily editing large bodies of content.

First, click the cursor into the RadEditor, then click **F11** on your keyboard to expand the editor to an easy-to-view full screen mode. When in full screen mode, click **F11** again to return the editor to the previous state.
