

## Viewing Messages

You can view any messages associated with a work order. These are the same messages as can be found under the Messages tab in Angus AnyWhere when viewing a work order's details.

1. Locate and open the work order you would like to view messages for. For more information, see the topic [Using Search](#).
2. After opening the work order, select **Message**. The message list will be displayed.

3. The messages list is displayed.
