

Reorder Property Info

1. Click on [Control Panel > Content Manager > Property Information](#)
2. At the bottom of the page you will see a box that lists the Property Info Sections in sequential order.

3. The order that these sections are listed correlates with the order that they are displayed on your Portal.

4. **Select** the Property Info Section you wish to move.
5. Click  or  to reorder the sections according to importance or to your preferences.
6. Click **Save**.
