About Property Alerts:

Property Alerts is a section found under **Alerts** on the **My Workspace** page that is designed to give Property Managers an additional pathway for communicating with other Tenant and Non-Tenant Users in instances of urgency or time-sensitivity.

The screenshot shows a web application interface. At the top, there is a navigation bar with links: HOME | PRESS ROOM | LOGOUT | TEST1 | PUBLIC SCHEDULER. Below this, there is a date display: 5/2/2011. To the left of the main content, there is a section for "e-mail this entry" with an envelope icon. The main content area is divided into two sections. The top section is titled "ALERTS" and contains a list of items: "User Registration(4)", "Scheduler Requests(6)", "Work Orders To-Do(555)", and "Property Alerts(1)". The "Property Alerts(1)" item is highlighted in yellow. Below the "ALERTS" section is a "CURRENT WEATHER" section for "May 2 (Today)". The weather is "Fair" with a sun icon, a high of 84, and a low of 58.
