

Deleting a User

Deleting a User:

1. Go to **Control Panel > Setup > User Groups**.

2. Click on the User Group the desired user to be deleted belongs to.

3. Click on the checkbox next to the desired user to be deleted and click on **Delete**.

4. Click **OK** in the popup box to confirm the user will be permanently deleted.

5. The user will now be permanently deleted from the property.
