

Building Services Reports

Control Panel > Reports > Building Services Reports

About Building Services Reports:

Reports from the Angus AnyWhere™ system provide management with fast, fact-based information to enable better decision-making. They can be run at any time and for any duration and can display any level of detail that may be required.

Note:

- When navigating within reports, some reports contain links which will open another window, displaying more detailed information. To return to the main report window, click the X inside the top-right corner of the screen.
